Welcome to Design Thinker School

Hey there, future designer! 

We're so glad you've found your way here. At Design Thinker School, we've had the privilege of guiding hundreds of students just like you — helping them crack UCEED, CEED, NID, and NIFT, and take their first confident step into the world of design. You're not just a number to us — you're a story in the making.

Our team? We've walked the same path. We're alumni from IIT Bombay, IIT Guwahati, and NID Ahmedabad — and we've poured everything we've learned into building a course that truly works. Not just to help you clear an exam, but to shape how you think, sketch, ideate, and present yourself like a designer.

We've designed this course keeping you in mind — your doubts, your strengths, your schedule. From recorded lectures you can watch anytime to live classes where you get real feedback, we're with you through Part A, Part B, portfolio building, studio tests, and mock interviews.

So whether you're starting fresh or looking for a second shot, we're here for you. You've got the spark — we'll help turn it into something powerful.

Let's begin your design journey. And trust us — your future self will thank you for starting today.

Let's begin!
